

Curved oak log needed!

INSPIRING
VIEWS

Inspiring Views is a project that restores viewpoints, engages communities and commissions sculptural seating. The next addition to this art trail on the North Downs Way is called 'Portal' and will be located near the Kent border in Surrey. The artist Philip Walker is searching for the last piece of timber to complete this beautiful structure in his

- The oak section needs to be 2 metres in length, and a minimum of 0.8 m in diameter.
- To allow for a strong curved section, the piece needs a 260 mm deflection (curve).
